Buckner and Moore wishes to commend Singleton Sheet metal on a job well done. From the very start of the project, you exhibited great expertise in the handling of the the acoustical related stainless steel sheet metal fabrication. Your shop drawings were presented in a timely fashion and, they were expertly done and were complete. Your fabrication time and delivery dates were tailored to fit a very complicated and drawn out phased schedule. Deliveries were made as scheduled. The fabrication was precise and presented no erection problems. When difficulties arose, which in our business is inevitable, you responded very quickly and proceeded to solve the problem, not fight it.

If, at any time in the future, a project arises that contains materials suited to Singleton Sheet Metal, we will not hesitate to contact you for quotations and would gladly use your services.

We again thank you for your part in making this project a success and look forward to working with you again.

Sincerely

Earl D Hall
Vice President.
